Who We Are and What We Do

Alam Bumi Resources Group (PT. Alam Bumi Sumberdaya), part of Straits Group International Resources Pte. Ltd. in Singapore, operates within an integrated supply network specializing in coconut-based industrial and consumer products.

We manage a structured sourcing, processing, and distribution network across Indonesia, ensuring consistent supply, controlled quality, and scalable delivery.

Our portfolio covers a wide range of coconut-derived products, serving diverse industries across both domestic and international markets.

Our Integrated Capabilities

Our operations are structured across a fully integrated value chain:

1. Raw Material Sourcing

Direct sourcing of coconut-based raw materials from key producing regions across Indonesia, ensuring consistency and availability.

2. Supply Network Integration

Coordination with verified suppliers and processing partners to maintain scalable and stable supply capacity.

3. Primary Processing

Initial processing including drying, extraction, carbonization, fiber separation, and other product-specific treatments.

4. Product Processing & Standardization

Refining, grading, sizing, and customization according to international specifications and buyer requirements.

5. Quality Control System

Continuous monitoring, laboratory testing, and batch validation to ensure product consistency and compliance.

6. Packaging & Export Handling

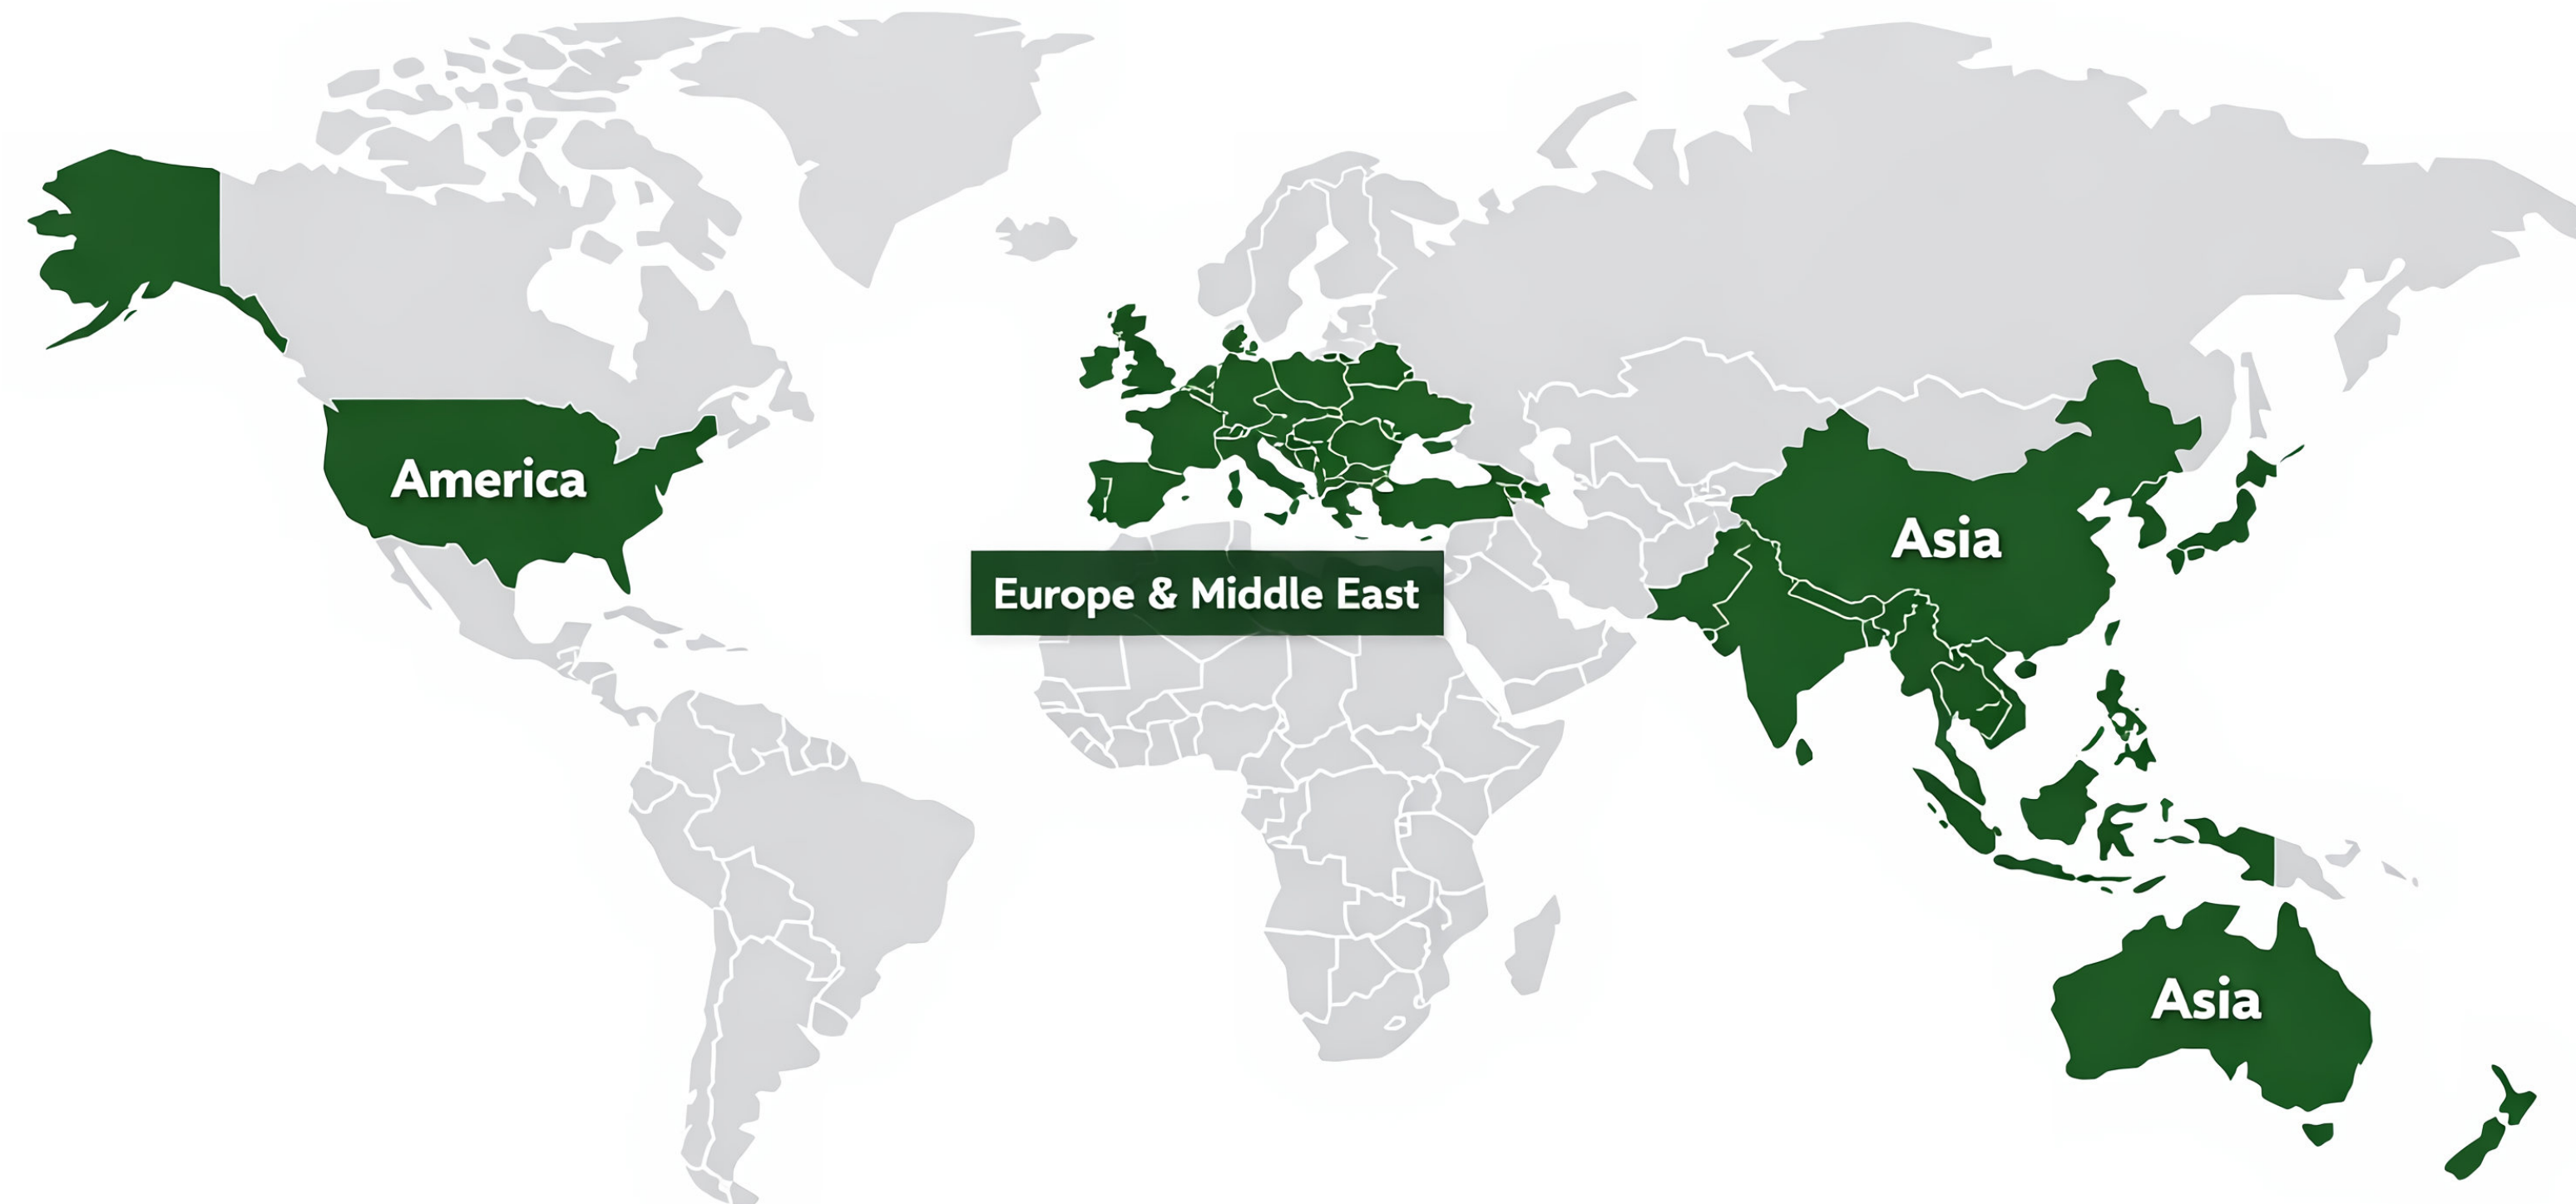

Handling of bulk and retail packaging, container loading, and export documentation in accordance with international standards

7. Global Distribution Network

Efficient distribution to both domestic and international markets, supported by a well-coordinated logistics system and reliable delivery network.

A Global Distribution Network reaching over 30
countries, across all continents Coverage
across Asia, Middle East, Europe, and America

Food Grade Virgin Coconut Oil

Food Grade Virgin Coconut Oil (VCO) is a premium edible oil extracted from fresh coconut meat through cold-pressed or centrifuge processes without the use of heat or chemicals. Known for its exceptional purity, natural aroma, and high nutritional value, VCO is widely used in food, health, and wellness industries. Compared to refined oils, virgin coconut oil retains its natural antioxidants, medium-chain triglycerides (MCTs), and superior quality, making it ideal for both consumption and formulation.

Characteristics

- Purity:** 100% natural and unrefined, free from chemicals
- Extraction:** Cold-pressed or centrifuge process
- Color:** Clear and transparent
- Aroma:** Fresh natural coconut aroma
- Quality:** Rich in MCTs and natural antioxidants
- Performance:** Suitable for food, beverage, and health applications

Spesification

- Type:** Virgin Coconut Oil (Food Grade)
- FFA (Free Fatty Acid):** Low (typically $\leq 0.5\%$)
- Moisture & Impurities:** Low (max 0.1–0.2%)
- Color:** Water-clear to slightly transparent
- Odor:** Fresh coconut aroma
- Packaging:** Bottle / Jerry can / Drum / IBC / Custom

Description Scheme

- Raw Material:** Fresh Coconut Meat
- Processing Method:** Cold Pressed / Centrifuge / Filtration
- Application:** Food, beverage, cooking oil, health supplement
- Production Area:** Indonesia
- Quality Control:** Lab tested & batch controlled
- Usage Type:** Food-grade oil
- Export Standard:** International food safety compliance

Cosmetic Grade Virgin Coconut Oil

Cosmetic Grade Virgin Coconut Oil (VCO) is a premium-quality oil extracted from fresh coconut meat using cold-pressed or centrifuge methods, specifically refined for cosmetic and personal care applications. With its exceptional purity, light texture, and natural moisturizing properties, this oil is widely used in skincare, haircare, and cosmetic formulations. Compared to conventional oils, cosmetic-grade VCO offers superior stability, smooth absorption, and a naturally nourishing profile suitable for high-end beauty products.

Characteristics

Purity: Highly refined natural oil suitable for cosmetic use
Texture: Light and smooth with fast absorption
Moisturizing: Excellent skin and hair conditioning properties
Color: Clear and transparent
Aroma: Mild natural coconut scent
Performance: Stable and consistent for cosmetic formulations

Spesification

Type: Virgin Coconut Oil (Cosmetic Grade)
FFA (Free Fatty Acid): Very low
(typically $\leq 0.3\text{--}0.5\%$)
Moisture & Impurities: Very low (max 0.1%)
Color: Water-clear
Odor: Mild natural coconut aroma
Packaging: Bottle / Jerry can / Drum / IBC / Custom

Description Scheme

Raw Material: Fresh Coconut Meat
Processing Method: Cold Pressed / Centrifuge / Filtration
Application: Skincare, haircare, cosmetics, personal care products
Production Area: Indonesia
Quality Control: Lab tested & batch controlled
Usage Type: Cosmetic-grade oil
Export Standard: International cosmetic compliance

Pharmaceutical Grade Virgin Coconut Oil

Pharmaceutical Grade Virgin Coconut Oil (VCO) is an ultra-pure coconut oil extracted from fresh coconut meat through advanced cold-pressed or centrifuge processes, meeting stringent pharmaceutical and nutraceutical standards. Carefully processed under controlled conditions, this oil offers exceptional purity, stability, and consistency, making it suitable for sensitive applications. Compared to standard oils, pharmaceutical-grade VCO ensures superior quality, low impurities, and high reliability for medical, supplement, and high-end formulations.

Characteristics

- Purity:** Ultra-high purity with strict quality control
- Quality:** Pharmaceutical-grade standard with consistent composition
- Color:** Water-clear and transparent
- Aroma:** Neutral to very mild coconut scent
- Stability:** High oxidative stability and long shelf life
- Performance:** Suitable for pharmaceutical and nutraceutical formulations

Spesification

- Type:** Virgin Coconut Oil (Pharmaceutical Grade)
- FFA (Free Fatty Acid):** Very low (typically $\leq 0.1\text{--}0.3\%$)
- Moisture & Impurities:** Extremely low (max $\leq 0.1\%$)
- Peroxide Value:** Very low (within pharmaceutical limits)
- Color:** Water-clear
- Odor:** Neutral or very mild
- Packaging:** Pharmaceutical-grade packaging (Bottle / Drum / IBC / Custom)

Description Scheme

- Raw Material:** Fresh Coconut Meat
- Processing Method:** Cold Pressed / Centrifuge / Fine Filtration
- Application:** Pharmaceuticals, nutraceuticals, capsules, medical formulations
- Production Area:** Indonesia
- Quality Control:** Lab tested, refined & batch controlled
- Usage Type:** Pharmaceutical-grade oil
- Export Standard:** International pharmaceutical compliance

Organic Certified Virgin Coconut Oil

Organic Certified Virgin Coconut Oil (VCO) is a premium-quality oil extracted from organically grown coconuts using cold-pressed or centrifuge methods without the use of chemicals or synthetic additives. Produced under certified organic standards, this oil ensures full traceability, sustainability, and purity. Compared to conventional oils, organic VCO offers a cleaner, more natural profile, making it ideal for health-conscious consumers and premium food, cosmetic, and wellness applications.

Characteristics

- Purity:** 100% natural and organic-certified
- Source:** Derived from organically grown coconuts
- Processing:** Chemical-free extraction process
- Color:** Clear and transparent
- Aroma:** Fresh and mild coconut scent
- Performance:** Clean-label, safe, and consistent for various applications

Spesification

- Type:** Virgin Coconut Oil (Organic Certified)
- Certification:** Organic certified (EU / USDA / equivalent)
- FFA (Free Fatty Acid):** Low (typically $\leq 0.3\text{--}0.5\%$)
- Moisture & Impurities:** Very low (max $\leq 0.1\%$)
- Color:** Water-clear
- Odor:** Natural coconut aroma
- Packaging:** Bottle / Jerry can / Drum / IBC / Custom

Description Scheme

- Raw Material:** Organic Coconut
- Processing Method:** Cold Pressed / Centrifuge / Chemical-free processing
- Application:** Food, cosmetics, wellness, clean-label products
- Production Area:** Indonesia
- Quality Control:** Organic-certified, lab tested & batch controlled
- Usage Type:** Organic food & cosmetic applications
- Export Standard:** International organic compliance

Cold-Pressed Virgin Coconut Oil

Cold-Pressed Virgin Coconut Oil (VCO) is a premium-quality oil extracted from fresh coconut meat using a mechanical cold-press process without heat or chemical treatment. This method preserves the oil’s natural nutrients, aroma, and beneficial properties, ensuring maximum quality and purity. Compared to conventional extraction methods, cold-pressed VCO retains its natural composition, making it ideal for food, cosmetic, and wellness applications that demand high integrity and performance.

Characteristics

- Purity:** 100% natural oil with no chemical processing
- Processing:** Cold-pressed to preserve nutrients and quality
- Color:** Clear and transparent
- Aroma:** Fresh and natural coconut scent
- Texture:** Light and smooth with fast absorption
- Performance:** High nutritional value and stable quality

Spesification

- Type:** Virgin Coconut Oil (Cold-Pressed)
- FFA (Free Fatty Acid):** Low (typically $\leq 0.3\text{--}0.5\%$)
- Moisture & Impurities:** Very low (max $\leq 0.1\%$)
- Color:** Water-clear
- Odor:** Natural coconut aroma
- Processing:** Mechanical cold-pressed extraction
- Packaging:** Bottle / Jerry can / Drum / IBC / Custom

Description Scheme

- Raw Material:** Fresh Coconut Meat
- Processing Method:** Mechanical Cold Pressed / Filtration
- Application:** Food, cosmetics, wellness, natural products
- Production Area:** Indonesia
- Quality Control:** Lab tested & batch controlled
- Usage Type:** Food-grade & cosmetic applications
- Export Standard:** International specification compliance

Refined Virgin Coconut Oil (Premium Filtered)

Refined Virgin Coconut Oil (Premium Filtered) is a high-purity coconut oil derived from virgin coconut oil that undergoes advanced filtration and refining processes to achieve superior clarity, neutrality, and stability. This process enhances the oil's appearance and consistency while maintaining its core beneficial properties. Compared to standard VCO, premium filtered VCO offers a cleaner profile, reduced odor, and improved performance, making it ideal for high-end food, cosmetic, and industrial applications.

Characteristics

- Purity:** Highly refined and filtered for maximum clarity
- Color:** Crystal-clear and water-like appearance
- Odor:** Neutral to very mild coconut scent
- Texture:** Smooth and light with excellent spreadability
- Stability:** Enhanced oxidative stability and shelf life
- Performance:** Consistent quality for premium applications

Spesification

- Type:** Refined Virgin Coconut Oil (Premium Filtered)
- FFA (Free Fatty Acid):** Very low (typically $\leq 0.1\text{--}0.3\%$)
- Moisture & Impurities:** Extremely low (max $\leq 0.1\%$)
- Color:** Crystal-clear
- Odor:** Neutral or very mild
- Processing:** Fine filtration & controlled refining
- Packaging:** Bottle / Jerry can / Drum / IBC / Custom

Description Scheme

- Raw Material:** Virgin Coconut Oil
- Processing Method:** Fine Filtration / Controlled Refining
- Application:** Food processing, cosmetics, personal care, industrial use
- Production Area:** Indonesia
- Quality Control:** Lab tested, refined & batch controlled
- Usage Type:** Premium-grade oil
- Export Standard:** International specification compliance

Ethics & Compliance

How We Maintain High Standards?

Alam Bumi Resources is committed to conducting its operations in an ethical, legal, environmentally responsible, and socially sustainable manner. Our business is built upon an integrated supply network across Indonesia, ensuring responsible sourcing, controlled processing, and reliable distribution. We continuously strengthen our governance framework to align with international standards and long-term sustainability principles.

01

Supplier Code of Conduct

We require all suppliers and partners to operate in accordance with ethical, legal, and responsible business practices.

Our Supplier Code of Conduct outlines expectations covering

- Ethical sourcing and procurement
- Compliance with labor and human rights standards
- Environmental responsibility in operations
- Transparency and accountability in business conduct

We work closely with our partners to ensure these standards are consistently upheld across the supply chain.

02

Responsible Sourcing Commitment

We are committed to maintaining a supply chain free from unethical practices, including forced labor, child labor, and unsafe working conditions.

Our sourcing approach emphasizes:

- Responsible supplier selection and evaluation
- Ongoing monitoring of supplier practices
- Alignment with international labor and human rights standards

We aim to ensure that all materials are sourced responsibly and sustainably.

03

Environmental & Social Responsibility

We are dedicated to minimizing environmental impact while supporting sustainable industry practices.

Our commitments include:

- Promoting the use of renewable coconut-based resources
- Supporting local supplier communities and economic development
- Reducing environmental footprint through efficient processing
- Ensuring compliance with applicable environmental regulations

We continuously integrate sustainability considerations into our operational and business strategies.

Be Part of Our Global Network

We guarantee the best quality at the most competitive prices.
